

Addendum Three to the Request for Proposals for Drilling of Exploratory Temperature-Gradient Wells for the SCPPA Area One Geothermal Energy Project Dated June 30, 2008

August 4, 2008

This is to notify all concerned that the Southern California Public Power Authority (SCPPA) is issuing the following addendum in connection with its Request for Proposals for Drilling of Exploratory Temperature-Gradient Wells for the SCPPA Area One Geothermal Energy Project dated June 30, 2008.

Page 7 of Appendix B: The first sentence of **Item 19 of Drilling Procedure** describing the 2-7/8-inch tubing is replaced with the follow:

“Run a string of 2-7/8-inch used oilfield tubing, equipped with a cap at the bottom. Tubing string may be either coiled tubing or API tubing of any standard grade (N-80, J-55 or K-55) with oilfield connections (external upset, 8-round pipe). PVC glued pipe or galvanized water pipe with NPT threads should not be used.”

Figure 2 of Appendix B: The second to the bottom note on Figure 2 describing the 2-7/8-inch tubing is replaced with the following:

“2-7/8-inch (OD) used coiled tubing or API tubing of any standard grade (N-80, J-55 or K-55) with oilfield connections (external upset, 8-round pipe), capped at bottom.”

In submitting proposals, all respondents are requested to take cognizance of the addendum to the Request for Proposals here made.

A copy of this addendum or an acknowledgment thereof shall be returned with the PROPOSAL DOCUMENTS.

ALL pages of the PROPOSAL DOCUMENTS, as revised by this addendum, shall be filled out and returned as a part of the submittals.

BILL D. CARNAHAN
Executive Director
Southern California Public Power Authority
