

**ADDENDUM: April 9, 2015**  
Questions and Answers

- 1. Can we receive more information concerning the equipment that will be placed in the grey water treatment plant?**

LADWP is working on obtaining additional information on the gray water system. Once that information is received, bidders will be forwarded information.

- 2. Can we receive sections and elevations for the LADWP Customer Engagement Laboratory?**

Full size section and elevation were previously provided in PDF format.

- 3. Has all the content for playback on the various TV/monitors already been developed and is ready for playback? What format(s) is the AV content provided in?**

The AV content for the Customer Engagement Laboratory has not be developed.

- 4. Will LADWP supply images for reproduction and are these of sufficient quality and resolution for large scale reproductions?**

SCPPA is unsure what images are being requested. If SCPPA or LADWP does provide stock images, the quality would be useable for large scale reproductions.

- 5. Is fabricator responsible for securing any additional images and rights?**

Yes, successful bidders would be responsible to secure any additional images and rights necessary to complete exhibits.

- 6. Does LADWP have any particular requirements for the AV equipment?**

No, there is no particular AV equipment that LADWP has identified. LADWP has only listed minimum requirements for the AV equipment designated for the Classroom/Meeting rooms in the Customer Engagement Laboratory.

- 7. Who provides the adjustable motorized ceiling grid? And is this in room 307 only?**

USS Cal will build a motorized ceiling grid. Bidders are responsible for the lighting racks to mount on ceiling.

**8. Please provide information on the content/design review and approval process.**

Draft process (subject to change depending on schedule)–

- Day 1 - Kickoff Meeting.
- Two weeks – Detail requirements/data gathering from LADWP stakeholders.
- One week – Successful bidder develops preliminary design/sketches for LADWP to review.
- One week – LADWP provides feedback on preliminary design
- One week – Successful bidder incorporates feedback to develop final designs
- One week – LADWP approves design, fabrication can begin.

**9. Is English the only language for the displays or is Spanish also required?**

English is the only language required for the displays/exhibit requiring a completion deadline of September 1st. Exhibits that come after that may require additional languages.
