SOUTHERN CALIFORNIA PUBLIC POWER AUTHORITY

ADDENDUM to Request for Qualifications and Proposals for Natural Gas Prepayment Program

Revised Natural Gas Amount

The Southern California Public Power Authority (“SCPPA”) has revised the amount of its anticipated natural gas requirement to 5,000mmBtu/day. SCPPA respectfully requests that proposals submitted on January 20th reflect this revised amount.

Pricing Date Changed to January 18th

Due to the above mentioned reduction in the amount of natural gas required, SCPPA requests that the natural gas pricing requested in C.6. of the original proposal be completed on January 18th instead of January 12th.

As a point of further clarification, SCPPA has requested these price indications for informational purposes as part of its evaluation of the proposals. It is not expected that these prices will be held firm for any amount of time.
