

Request for Proposals for the Development of Community Solar
Programs

ADDENDUM A

Version Dated: March 15, 2016

1. Here are some potential physical addresses for the solar array sites referenced below:

SCPPA community solar arrays	Estimated Capacity
Rooftop PV system 300 Green Street Pasadena CA 91101 <i>(Exhibition Hall and Ballroom)</i>	600 kW DC
New Carport Parking Garage Structure 33 E Green Street Pasadena, CA 91105	350 kW DC
New Carport Structure Parking Lot (13 foot 6 inch clearance required) 1001 Rose Bowl Dr. Pasadena, CA 91103 <i>(Lot D)</i>	1000 kW DC

- These are all city owned properties, but none of them are Pasadena Water & Power properties.
- There are non-profit organizations that run the 1st and 3rd properties listed in the table.
- Developer should factor in a recommended lease payment for use of the site.
- SCPPA will be providing plans to further assess structural quality available later in the process.

2. The addresses for the potential existing resources to be repowered are below:

- **Riverside-La Sierra Station**
10901 Indiana Ave.
Riverside, CA 92503
- **City of Riverside Utilities Operations Center**
2911 Adams St.
Riverside, CA 92504
